EES SERIES MACHINERY MOUNTS

EES machinery mounts are U.S. Navy standard resilient mounts meeting the requirements of MIL-M_17508 for the control of vibration and structure borne noise. They are rugged, all-attitude, low frequency vibration mounts designed for extended use in a harsh marine environment.

Features:

- 1:1 Axial to Radial spring rate
- Fail-safe design
- Efficiently isolates vibration in all directions
- Survives MIL-S-901D shock
